The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jurasek '712 in view of Oberhaus et al. 6286691.

Jurasek teaches a free standing wire rack having end frames 23,24 and further having cross rods arranged horizontally thereon. Also shown is shelving 26,27. Vertical rods are shown and braces 31,32. The connecting sleeve is the ends of the vertical uprights.

Oberhaus teaches pressure fitting between the rack components. To connect the rack components of Jurasek by pressure fitting as taught by Oberhaus for the purpose of an easy yet secure fitting would have been obvious for one having ordinary skill in the art at the time of the invention.

Applicant's remarks have been carefully considered but are considered moot in view of the new grounds of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
